** Regulation 2 of the Environmental Protection (Applications, Appeals and Registers) Regulations 1991 requires that all applications must include the following information (for guidance on these requirements see General Guidance No.3 - 'Secretary of State's Guidance: Applications and Registers', HMSO, 1991):-

- description of the prescribed process
- list of prescribed substances (and any other substances) which might cause harm if released into the air) used in connection with or resulting from the prescribed process
- description of the techniques to be used for preventing releases into the air of such substances, for reducing such substances to a minimum and for rendering harmless any such substances that are released
- details of any proposed release of such a substance into the air and an assessment of the environmental consequences
- proposals for monitoring any release of such substances, the environmental consequences of any such release and the use of techniques for preventing, etc, releases
- the matters on which the applicant relies to establish that the objectives in section 7(2) of the Act will be achieved and that he will be able to comply with the condition implied by section 7(4) of the Act

The applicant may also supply any other information he wishes the Local Authority to take into account in considering his application

Mr Glews

Dudley 452607

9 April 1992

Dear Sir

Re:- The Environmental Protection Act 1990, Part I.
Authorisation of Prescribed Processes.

I write to confirm that your authorisation application to continue to operate a Ferrous Foundry Process has been accepted by Dudley M.B.C. and therefore can be considered as being 'duly made'.

The authorisation procedure now involves consulting the Health and Safety Executive and possibly the Nature Conservancy Council to allow them to comment on the application. There is a duty upon the applicant ie. yourselves, to advertise the authorisation application in a local newspaper. The advertisement must be placed in the press on a single occasion before six weeks has elapsed from the initial application which was made on the 7 April 1992.

The advertisement must contain the following information:-

- i) name of applicant.
- ii) address of premises where the process will be carried on.
- (iii) a brief description of the nature of the process.
- (iv) address of the location where the application may be inspected.
- (v) a statement to inform the public that there is no fee to inspect the application information.
- (vi) a statement to the effect that written representations to the L.A. within 28 days of the publication of the advertisement will be taken into consideration.
- (vii) the address to which representations should be sent.

I have enclosed a specimen advertisement which contains the information listed below.

It is also necessary for you to inform me at least one week in advance of the publication of the advertisement, which newspaper the advertisement will appear in and on which date, and to provide me with a copy of the advertisement as soon as possible after publication has occurred.

Mr N Horton

9 April 1992

Once the application has been advertised and the statutory representation reply period has elapsed I can begin to write the process authorisation, at that time I will contact you again to arrange a further visit to your premises to examine the processes to be authorised in further detail.

I look forward to hearing from you in the near future, if you have any queries please do not hesitate to contact me.

Yours faithfully

T Glews
Principal Environmental Health Officer
(Environmental Protection)
