Dear Sirs

Environmental Permitting (England and Wales) Regulations 2007: Application for a variation of the following Environmental Permits

PET/PB/20- Greenfields Connect, Manor Way, Halesowen, B62 8RJ

PET/PB/44- Short Cross Connect, Stourbridge Road, Halesowen, B63 3UA

I refer to your application for the variation of the environmental permits for the above Installations, which I consider to be 'duly made'. Your application has now been placed on the public register, and a copy of each application has been forwarded to the Petroleum Licensing Authority for consultation.

The application will now be processed, and a site visit will be carried out to determine compliance with the existing permit conditions. If the Council is satisfied that the Installations are being operated in accordance with the existing permits then a variation notice detailing changes to the existing permit conditions and a consolidated permit for each Installation will be issued. Prior to issuing the variation notices a draft of the proposed changes will be sent to you for comment.

If there are any matters you wish to discuss in relation to the above then please do not hesitate to contact me.

Yours faithfully
